We are **Mosaic Interiors & Furniture** and provides top to bottom new interiors for homes, offices and even factories. We produce a wide array of quality products including free standing furniture, built in furniture and customized furniture solutions.

Since inception, we've provided a myriad of products and service to home owners, developers and all size of businesses.

At Mosaic Interiors & Furniture, every stage of the design and renovation process – from the initial concept generation to plan drawings and preparation of color boards to actual construction, up to the final handover of the completed project is managed by specialized teams comprising the chief designer, project manager and carpentry crew. This is to ensure that the design vision and quality of work are all in line and done to the complete satisfaction of our clients. The secret to our success is combining high quality furnishings, a simple elegant style and extensive knowledge of interior design. The results are coordinated and distinctive environments that find harmony between form and function.

We are having a full & wide set up of working i.e. complete staff & workers, machineries and complete set up for residential and office furniture design.
