

MODULAR WORKSTATION VOL-1

www.mosaicinteriors.in

profile

The entire range of our products has been carefully engineered by keeping basic values of ergonomic, physiology and anthropometrics upper most in our design. They are born not just out of whim or unthinking adaptation from foreign models, but out of several long years of painstaking and pioneering research and development. We offer not just for dynamically active products; but keeping in mind the real needs of office across income and need segments.

We have a wide range of seating solutions for theatres, auditoriums, Schools, Institute and Colleges. From a single caft seat to a tandem solution of over a thousand seats, Trends is equipped to handle all requirements across the category. We are a customer-friendly organization. We ensure that the needs of our customers are the focus of our actions. We also ensure that our products and services are superior in quality and exceed industry standards.
